

**MOTOROLA**

# **TIMEPORT™**

## **GPRS MOBILE PHONE**

### **Key features and benefits**

#### **GPRS**

- A packet-based wireless communication service that enriches the WAP experience and promises quicker data rates, cheaper bills and continuous connection to the internet for mobile phone users.

#### **Internet mini browser access<sup>1,2</sup>**

- Access the Internet and other advanced phone services on the move for entertainment, sports, stock reports and world news up dates.

#### **Tri-band technology<sup>1</sup>**

- Allows international roaming in Europe, Africa, Asia, Australia and most of America<sup>3</sup>, helping you to stay in contact.

#### **Voice activation**

- Save time with voice activated dialling and function control.

#### **Voice Note™ voice recorder<sup>3</sup>**

- When you don't have a pen and paper, or don't have a free hand, just leave yourself a voice memo or record a phone conversation.

#### **VibraCall® alert**

- When a ringing phone is unacceptable, avoid disturbing others with a discreet vibrating alert.

#### **IrDA connectivity<sup>4</sup>**

- No need for connector cables; with infrared communication you can up and down load between your phone and your PC.

1 Network, subscription, SIM card or service provider dependent feature. Not available in all areas. Tri-band manual selection available only on tri-band networks and international roaming only where roaming agreements exist.

2 Access only to pages programmed with WML page description language.

3 Subject to roaming agreements between GSM network, availability of service and coverage.

4 Use of this function is subject to various laws regarding privacy of phone conversations.

5 Check with your device manufacturer for infrared connectivity.
